Chinese and Irish Unite!
Stop Racist Murders!

The people of Dublin have been shocked by a cruel, racist murder. In the early hours of Monday night, three Chinese students were brutally set on by a gang of thugs as they were returning from a party in Drumcondra. To the cries of hate filled , bigoted insults, they were viciously beaten with an iron bar. The gang did not stop until they had beaten one Chinese man unconscious. He went into a coma and died on Friday night.

We have seen what the poison of race hatred has done in other countries and in the North of our own island. Racist gangs, neo nazis and right wing politicians alike try to scapegoat refugees, asylum seekers and immigrants for the problems of unemployment, homelessness and poverty. These problems were not caused by immigrants- they existed long before people of colour ever came to Ireland, and were caused by the greed of right wing politicians who put profit before people.

In the North, we have seen how the bigots of the UDA have targeted Irish homes, school teachers, postmen and schoolkids simply because of their nationality. We cannot let the same hatred and fear stalk the streets of Dublin, and Globalise Resistance is calling on all trade unions, student groups, community associations and immigrant organisations to support the rally at the GPO. 12.30pm Saturday February 2nd. Tens of thousands of people took to the streets of the North to protest the sectarian murder of Danny Mc Colgan- we now need to take that same spirit and stand up for a multicultural Dublin, and tell the racist thugs that people of all colours are welcome on our streets.

OUR WORLD IS NOT FOR SALE
